Lumin Education is required to collect the socioeconomic status of each student as a performance indicator for student achievement (TEC 39 for Texas state requirements and ESEA section 1111 and 1116 for U.S. Department of Education requirements) and for the use in the disbursement of federal funds (ESEA section 1113). This information may also be shared with district education and health programs to help them evaluate, fund, or determine benefits for their programs. In accordance with the provisions of the Protection of Pupil Rights Amendment (PPRA) no student shall be required, as part of any program funded in whole or in part by the U.S. Department of Education, to submit to a survey, analysis, or evaluation that reveals information concerning income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program), without the prior written consent of the adult student, parent, or legal guardian.
